- 7.4 All payments required by this section, and accompanying statements, shall be subject to audit by the Norfolk Commissioner of Revenue and assessment or refund if the payment is found to be in error.
- 7.5 In the event that such audit results in an assessment by and an additional payment to the City, such additional payment shall be subject to interest at the rate of one and one-half percent (1½%) per month, or any fraction of a month elapsed after the due date where the additional payment exceeds five percent (5%) of the amount paid by the Grantee.

Failure to pay such fee shall entitle the Grantor to revoke this Franchise Agreement at its sole discretion.

**Section 13. Location of Facilities.** Subject to the terms of Section 16 of this Agreement, Grantee's facilities shall be constructed, installed and located, at their sole expense, as follows:

- (a) Grantee shall install its copper and/or fiber optic cables within an existing underground duct or conduit whenever excess capacity exists within such utility facility, so long as Grantee, by so doing, would not be required to relinquish ownership and control of its facilities to the owner of the duct or conduit, and so long as Grantee determines such installation to be the most economically feasible option available.
- (b) Subject to any applicable City ordinances or code provisions, Grantee may install utility poles in the public right-of-way and attach Telecommunications facilities to said utility poles. In addition, Grantee may install its Telecommunications facilities on existing or replacement utility poles to the extent that space is available thereon.
- (c) Grantee shall comply, at its sole expense, with all requirements regarding the placement of its facilities underground in those areas designated as underground districts in the Norfolk City Code, or whenever all new and existing cable facilities and Telecommunications facilities are located or are required to be located underground within a particular segment of a public way of the City.

**Section 14. Permits.** Grantee, including its contractors and consultants, prior to any construction or work being commenced, is required to obtain at its sole expense all applicable permits, including any application and permit for, street opening, if any streets will be disturbed, and street, lane or sidewalk closures. However, nothing herein shall prohibit the City and a Grantee from agreeing to an alternative plan to review permit and construction procedures provided such alternative procedures provide substantially equivalent safeguards for responsible construction practices, and are in accordance with applicable City Code provisions.

**Section 15. Public Works.** The rights and privileges granted by this Agreement shall not be in preference or hindrance to the rights of the City and any other lawful governmental authorities having jurisdiction to perform or carry out any public works or public improvements. Should the telecommunications system interfere with the construction, maintenance or repair of such public works or improvements, Grantee, at its expense, shall protect or relocate the telecommunications system, or any applicable part thereof, as directed by the City or other governmental authorities having jurisdiction.

## **Section 16. Use of Public Ways.**

- 16.1 Grantee, in any opening it shall make in the public ways of the City, shall be subject to the provisions of this Agreement and to all applicable ordinances, codes and regulations of the City. The Telecommunications system of the Grantee shall be located so as not to interfere with the public safety or with the convenience of persons using the public ways.
- 16.2 The City reserves the right by resolution of the City Council or otherwise through proper representatives of the City to specifically designate the location of the Telecommunications system of Grantee with reference to municipal facilities, such sewer and water mains, drainage facilities, fiber optic cable, signal poles and lines and similar services, other facilities, such as public telephone utilities, public electric utilities, public cable television utilities, and railway communication and power lines, in such a manner as to protect the public safety and public and private property. Failure by the City to so designate does not relieve Grantee of its responsibilities in matters of public safety as provided in this Agreement. Grantee shall construct, maintain and locate its telecommunications system so as not to interfere with the construction, location and maintenance of sewer, water, drainage, electrical, signal and fiber optic facilities of the City.
- 16.3 Except in the cases of emergencies, Grantee shall not move, materially alter, materially change, or extend any of its telecommunications system in any public way unless prior written notice of its intention to do so is given to the City Manager and permission in writing to do so is granted by the City Manager or such requirement is waived by the City Manager. Such permission shall be conditioned upon compliance with the terms and conditions of this Agreement, with such other terms and conditions as will preserve, protect and promote the safety of the public using the public ways, and as will prevent undue interference with or obstruction of the use of the public ways by the public, the City or by any other public utility or public service corporation for their respective purposes and functions. Such work by Grantee shall also be coordinated with the City's annual paving program through the Department of Public Works. This section shall be subject to 47 U.S.C. § 1455.
- 16.4 The City requires that written permits, in any and all cases, be obtained by Grantee whenever it becomes necessary for Grantee to excavate in the public ways in order to install, construct, maintain or extend the Telecommunications system. Such permits may be made applicable to any and all types of excavations in the public ways, as prescribed by City, and City may establish a fee for each excavation made in a public way by a Grantee. Such permits may require the particular part or point of the public ways where construction or excavation is to be conducted, the length of time in which such permit shall authorize such work to be done and the hours of each day during which such work shall be undertaken. A single permit maybe issued for multiple excavations to be made in public ways; provided, however, any public way opening fee established by City shall apply to each excavation made in public ways of the City. Exceptions to the requirement for a written permit may be allowed in cases of emergencies involving public safety or restoration of service. In the case of emergency excavations made in the public ways without permit, Grantee shall attempt to notify the Director of Public Works or his designee immediately to obtain appropriate guidance and authority; however, in the event Grantee is unable to make such contact after making a diligent attempt to do so, Grantee may make a report of each such excavation to the City within two (2) working days and pay such fee as may be established by City for excavations in public ways by Grantee. Any permit applications and inspections related to repair of excavations shall be promptly acted upon by the City so as not to unreasonably delay Grantee in efficiently discharging its public service obligation.
- 16.5 Immediately after installation, repair or extension of the Telecommunications system or any portion thereof or any pavement cut by Grantee in any public way of the City, the incidental trenches or excavations shall be refilled by Grantee in a manner acceptable to the Director of Public Works. Pavement, sidewalks, curbs, gutters or any other portions of public ways damaged, disturbed or destroyed by such work shall be promptly restored and replaced with like materials to their former condition by Grantee at its own expense; however, where it is necessary, and if authorized by the City, in order to achieve the former conditions, Grantee shall use materials whose type,

specification and quantities exceed or are different from those used in the installation, then Grantee at its own expense shall provide such different materials. Where a cut or disturbance is made in a section of sidewalk or paving, rather than replacing only the area actually cut, Grantee shall replace the full width of the existing sidewalk or appropriate sections of paving as determined by the Director of Public Works and the full length of the section or sections cut, a section being defined as that-area marked by expansion joints or scoring or as determined by the Director of Public Works in accordance with the City's Right-of-Way Excavation & Restoration Manual. Grantee shall maintain, repair and keep in good condition for a period of two (2) years following such disturbance all portions of public ways disturbed by Grantee, to the extent that such maintenance and repair is necessary because of defective workmanship or materials supplied by Grantee.

- 16.6 Grantee shall promptly remove or correct any obstruction, damage, or defect in any public way which may have been caused by Grantee in the installation, operation, maintenance or extension of Grantee's telecommunications system. Any such obstruction, damage, or defect which is not promptly removed, repaired or corrected by Grantee after proper notice so to do, given by the City to Grantee, may be removed or corrected by the City, and the cost thereof shall be charged against Grantee and may be enforced as a lien upon any of Grantee's properties or assets. Any expense, cost, or damages incurred for repair, relocation, or replacement to City water, sanitary sewer, storm sewer, storm drainage, communication facilities or other property resulting from construction or maintenance of Grantee's Telecommunications system shall be borne by Grantee and any and all expense and cost incurred in connection therewith by the City shall be fully reimbursed by the Grantee to the City.
- 16.7 If weather or other conditions do not permit the complete restoration required by this Section, the Grantee shall temporarily restore the affected public ways or property. Such temporary restoration shall be at the Grantee's sole expense and the Grantee shall promptly undertake and complete the required permanent restoration when the weather or other conditions no longer prevent such permanent restoration.
- 16.8 Grantee or other person acting in its behalf shall use suitable barricades, flags, flagmen, lights, flares and other measures as required for the safety of all members of the general public and to prevent injury or damage to any person, vehicle or property by reason of such work in or affecting such ways or property and shall comply with all federal, state, and local laws and regulations, including the Virginia Work Area Protection Manual as amended from time to time.
- 16.9 Grantee shall not open, disturb or obstruct, at any one time, any more of the public ways than reasonably may be necessary to enable it to proceed in laying or repairing its Telecommunications system. Neither shall Grantee permit any public ways so opened, disturbed or obstructed by it in the installation, construction, repair or extension of its Telecommunications system to remain open or the public way disturbed or obstructed for a longer period of time than reasonably shall be necessary. In all cases where any public ways shall be excavated, disturbed or obstructed by Grantee, Grantee shall take all precautions necessary or proper for the protection of the public and shall maintain adequate warning signs, barricades, signals and other devices necessary or proper to adequately give notice, protection and warning to the public of the existence of all actual conditions present.
- 16.10 Whenever the City shall widen, reconstruct, realign, pave or repave, or otherwise work on any public ways, or shall change the grade or line of any public ways, or shall construct or reconstruct any water, sanitary sewer, storm sewer, drainage or communications facility of the City, it shall be the duty of Grantee to move, alter or relocate its Telecommunications system or any part thereof as requested by the City at Grantee's expense. Upon written notice by the Director of Public Works of the City's intention to perform work as specified above, Grantee shall within a reasonable period of time accomplish its obligation in accordance with and to conform to the plans of the City for such construction, reconstruction or improvements. Should the Grantee fail, refuse or neglect to comply with such notice, the Telecommunications system or any part hereof may be removed, altered or relocated by the City and the City shall not be liable to Grantee for any damages resulting from such removal, alteration or relocation.

16.11 In the event any Street or portion thereof used by Grantee shall be vacated by the City or the use thereof discontinued by Grantee during the term of this Franchise, Grantee shall not be obligated to remove its Telecommunications facilities therefrom unless specifically requested by the City to do so and on the removal thereof Grantee shall, at its own expense, restore, repair or reconstruct the Street area where such removal has occurred and place the Street area where such removal has occurred to a condition similar to that existing before such removal took place. In the event of failure, neglect or refusal of Grantee, after one hundred twenty (120) days' notice by the City to remove the Telecommunications facilities or to repair, restore, reconstruct, improve or maintain such Street portion, the City may do such work or cause it to be done, and the cost thereof as found and declared by the City shall be paid by Grantee as directed by the City and collection may be made by any available remedy.

**Section 17. Damage to Property.** Neither Grantee, nor any person acting on Grantee's behalf, shall take any action or permit any action to be done which may impair or damage any City Property, public ways of the City, other Ways or other property located in, on or adjacent thereto.

**Section 18. Repair and Emergency Work.** In the event of an unexpected repair or emergency, Grantee may commence such repair and emergency response work as required under the circumstances, provided Grantee shall notify the City as promptly as possible, before such repair or emergency work is started or as soon thereafter as possible if advance notice is not practicable.

**Section 19. Maintenance of Facilities.** Grantee shall maintain its Telecommunications facilities in good and safe condition and in a manner that complies with all applicable federal, state and local requirements, laws, ordinances, and regulations.

**Section 20. Safety Standards.** Grantee shall at all times employ a high standard of care and shall install and maintain and use approved methods and devices for preventing failure or accidents which are likely to cause damages, injuries or nuisances to the public.

**Section 21. Police Power.** All rights and privileges granted hereby are subject to the lawful exercise of the police power of the City to adopt and enforce local laws, rules and regulations necessary to the health, safety and general welfare of the public. Expressly reserved to the City is the right to adopt, in addition to the provisions of this Agreement and existing laws, such additional ordinances and regulations as are necessary for the lawful exercise of its police power for the benefit and safety of the public.

**Section 22. Relocation of Facilities.** Within one hundred twenty (120) days following written notice from the City, Grantee shall temporarily or permanently relocate, change or alter the position of any Telecommunications facilities within the public ways at Grantee's expense whenever the City shall have determined that such removal, relocation, change or alteration is reasonably necessary for:

- (a) The construction, repair, maintenance or installation of any City facilities or other public improvement in or upon the public ways.
- (b) The operations of the City or other governmental entity in or upon the public ways.

Grantee shall only relocate, change, or alter the position of Telecommunications facilities to sites that are mutually agreed upon by City and Grantee.

**Section 23. Emergency Removal or Relocation of Facilities.** The City retains the right and privilege to cut or move any Telecommunications facilities located within the public ways or other areas of the City as the City may determine to be necessary, appropriate or useful in response to any life-threatening emergency. The City will endeavor to notify Grantee of such emergencies that may affect their Telecommunications facilities. Nothing herein shall create any duties or obligations on the City to so notify Grantee nor shall the City, its officers, agents, employees, or volunteers in any way be liable for any failure to notify Grantee.

**Section 24. Damage to Grantee's Facilities.** Except for acts of gross negligence or willful misconduct, and subject to the City's rights to sovereign immunity, the City, its officers, agents, and employees, shall not be liable for any damage to or loss of any Grantee's Telecommunications services or Telecommunications facilities within the public ways or any other areas of the City as a result of or in connection with any public works, public improvements, construction, excavation, grading, filling, or work or activity or lack of any activity of any kind by or on behalf of the City.

**Section 25. Duty to Provide Information.** Within ten (10) days of a written request from the City, Grantee shall furnish the City with information sufficient to demonstrate that:

- (a) Grantee has complied with all requirements of this Agreement.
- (b) That all franchise fees, municipal sales taxes, telecommunications taxes, utility taxes or any other taxes, fees or charges due the City in connection with the telecommunications services or facilities provided by the Grantee have been properly collected and/or paid by Grantee.
- (b) All books, records, maps, and other documents maintained by Grantee with respect to its services or facilities within City or the public ways shall be made available for inspection by representatives of the City at least every six (6) months and at other reasonable times and intervals.

The City may request such information to the extent it is necessary to ensure compliance with this franchise agreement.

**Section 26. Insurance and Bond Requirements.**

- 26.1 Requirement of Insurance. Grantee shall, at its expense, obtain and maintain during the life of this Agreement the insurance and bond required by this Agreement. Any required insurance and bond shall be effective prior to the beginning of any work by Grantee within the City.
- 26.2 Commercial General Liability. Grantee shall maintain during the life of this Agreement Commercial General Liability insurance coverage on an occurrence basis insuring against all claims, loss, cost, damage, expense or liability from loss of life or damage or injury to persons or property arising out of any of the work or activity under or by virtue of this Agreement. The minimum limits of liability for this coverage shall be \$2,000,000 combined single limit for any one occurrence.
